

GFSS
Returning
Expectations

Returning Expectations

- School sports & extra-curricular activities are returning
- Covid health & safety protocols eliminated locker use last year
- *Return to lockers = return to expectations* around phones, bags, etc.
- **Current covid health and safety protocols** include:
 - **Masks** indoors
 - **Sanitizing** when entering the building
 - **Social distancing and spacing** (working side-by-side as opposed to face-to-face)

Lockers, Bags, and Phones

- **Phones stay in lockers** during class time
 - Teachers may request/allow you to bring a phone if needed for an activity
 - Phones found in class will be confiscated and sent to the office.
- **Bags should stay in lockers** as well; depending on your teacher, activity, and class you may need to bring your bag
- Lockers are school property and may be searched at administrations discretion
- **Avoid 'clustering'** around lockers, (health and safety as well as decreasing traffic jams)
 - You may be moved to a different locker if clustering becomes an issue

Absences, Lates and Arriving On-Time

- Absences must be phoned in by parents or they will be considered truant, (aka, skipping)
- If leaving the school **students must sign-out at the office**
- **Students are expected to contact their teachers** for homework and assignments when missing class

Washrooms and Hallways

- Come to class prepared; Use the 5 minutes between classes to drop off/pick up books and supplies
- Hall passes required in the hallway during class time
- Use sign-in/sign-out sheets
- Teachers will expect you to use the washrooms during transitions when possible
 - Many teachers will use the 20/20 rule: no bathroom breaks in the first or last 20 minutes of class.

Entrances/Exits

- 12 & 11 stay the same
- 8's to the front (main) entrance with the 11's **OR** 8's to the science wing entrance
 - Allows 8's and 11's to use auditorium stairwell to access lockers upstairs
- 9's Shop entrance
 - Closer to lockers in counselling hallway(or science wing)
- 10's First Aid entrance
 - Closer to science wing lockers

Stairwells to remain both up/down; we will revisit if congestion doesn't clear up
