Business discussed:

Treasurer's Report: Gaming Fund allocations were discussed at length and revisions were made to lower final total to fit within our budget- motion was made by Cindy to approve the changes, Yvonne 2nd the decision, all were in favour.

A decision was made to change the number of General meetings to be not less than four per year, one of those to be the AGM Meeting. Motion was made by Cindy, 2nd by Kristy, all were in favour.

PAC requests:

- we would like for the school to look into blocking inappropriate channels on the hallway TV monitors

- more benches for the students to sit on, or other options for places to eat lunches (classrooms, bleachers, etc.)

- there was some uncertainty regarding student fees... what they are for, how much they are. Parents requested that a student fees list made available to parents (especially for those with children going into grade 8)

- options other than sports for alternative lunch time activities as well as ways to upgrade our library esthetically as well as newer books, and magazines were discussed but due to budget cuts, lack of demand, and or sponsorship issues will prevent changes being made in these areas at this time.
